“WE UNDERSTAND YOUR SYSTEM NEED”

Our Company

- Wex is one of the fastest growing water treatment solution company in India. We are an industry leader in the development of effective solutions to meet our clients' water treatment challenges.
- We have the expertise and experience to apply innovative solutions that result in increased efficiency, productivity, durability and cost effectiveness.
- This is accomplished by leveraging funding, technology, human resources, time management and strategic partnerships to provide tailored, cost effective solutions to our clients' challenges.
- Our **Integrated Water Treatment Solutions**, to our clients create cost synergies, increase machinery efficiency and flexibility.

“WE UNDERSTAND YOUR SYSTEM NEED”

Quality Policy

- WPI ensures to deliver Quality Product and Services to our Customers.
- We are committed and dedicated to all aspects of quality where the objectives are optimum **customer satisfaction**.
- We shall strive for **Continual improvement** in our product, processes, services, and systems based on Customer feedback.

“WE UNDERSTAND YOUR SYSTEM NEED”

Products & Services

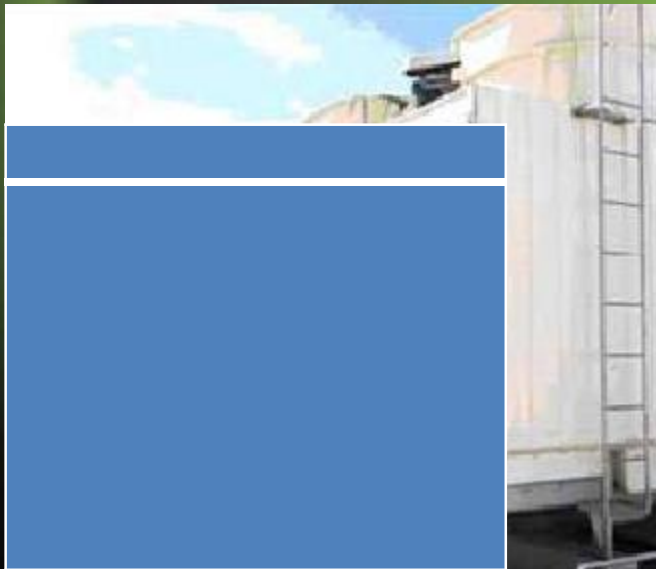

We have the expertise and experience to apply innovative solutions that result in increased efficiency, productivity, durability and cost effectiveness.

Our range comprise corrosion inhibitor, carbon cleaning chemicals, Water cleaning chemicals, descaling compounds, water treatment chemicals, cooling water treatment, boiler water treatment chemicals, reverse osmosis water treatment chemicals and carbon cleaner.

The loss of every down time of various equipment's and replacement of expensive tubes and components can be prevented by periodic scale cleaning. Mechanical removal of scale Involving dismantling of parts is cumbersome, time consuming and inefficient in cleaning various inaccessible areas of the accessible unit. Chemical cleaning as more efficient in inaccessible position.

Cooling Tower Water Treatment Chemicals

Water Softening Plants and Chemicals

“WE UNDERSTAND YOUR SYSTEM

A vision to innovate and the focus to deliver

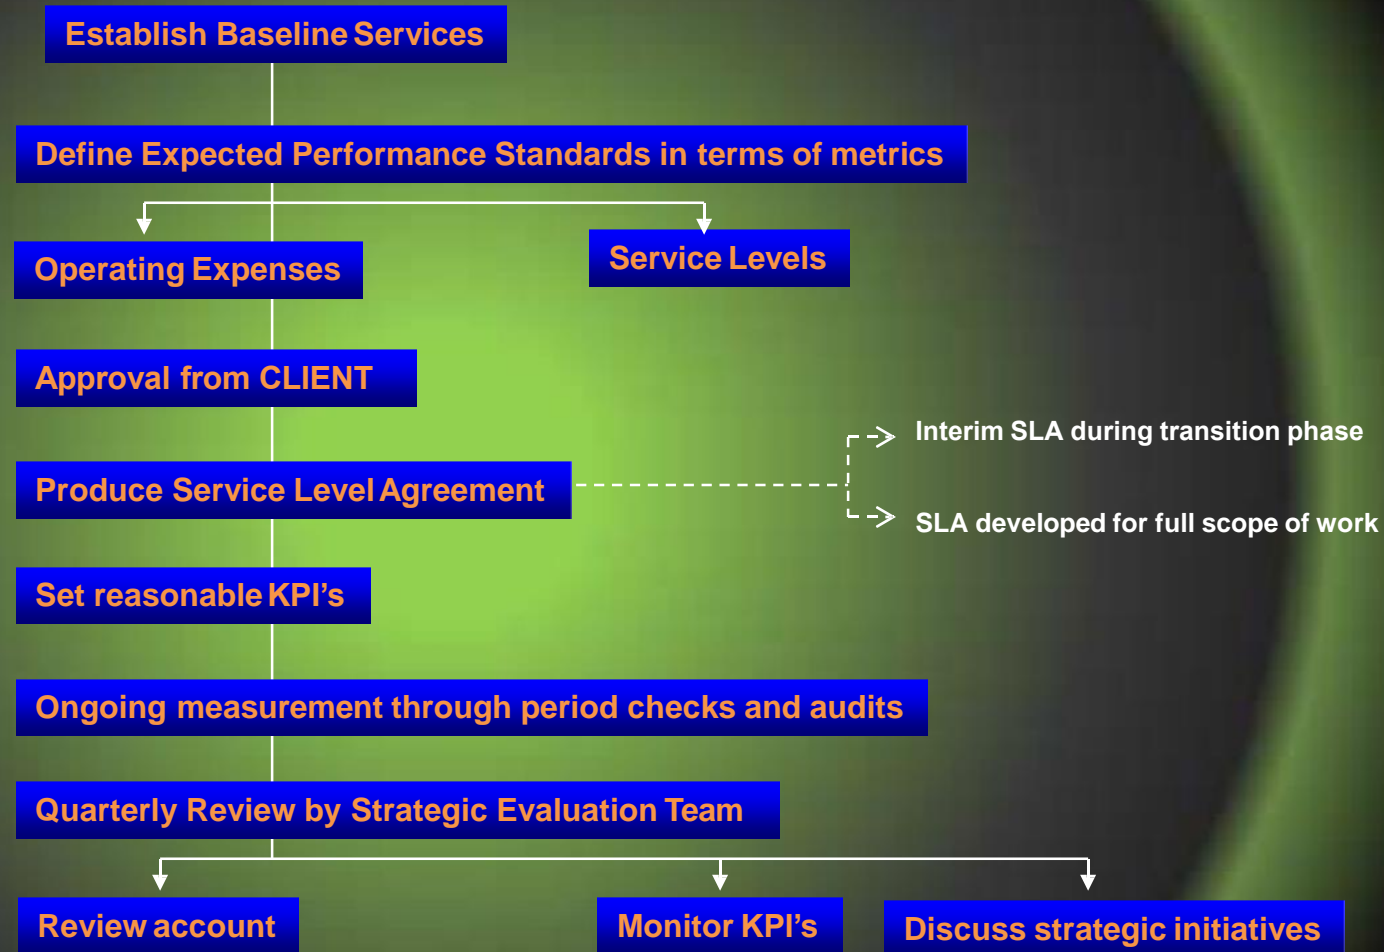

“WE UNDERSTAND YOUR SYSTEM NEED”

Performance

Our open book partnering approach is a very effective way to collaborate in developing service measures that are specific to and of importance to CLIENT. A partnership approach benefits the project, as we are able to establish agreed financial goals that emerge as part of a properly implemented SLA, and then share our success in achieving those goals.

Value Additions – WPI can offer to Client

- Reduction of operating costs through a streamlined organizational structure and PSPS economies of scale.
- Implementation of “Best in Class” practices through consistent service specifications, and a detailed preventive maintenance manual.
- The creation of a reporting process to track spending rates, cost savings, technician productivity, and customer satisfaction. An initiative was taken on one of our sites in Pune to reduce the operating cost. By effective measures and controlling the day to day services cost reduction of around 11 % was achieved.
- Development of a plan to capture historical utility data to track and improve the utility signature of the facility as part of the 5-year energy plan.
- Work Order and Preventive Maintenance Management System – Service Express
- Accounting and Information Services
- Staff Training and Deployment
- Annual Benchmarking Studies
- Evacuation Plan, fire drills for the tenants & owners
- Budgeting – as a helping hand for the finance department
- Management of occupational Health & Safety standards for all in-house technicians and external contractors

We **measure** our..

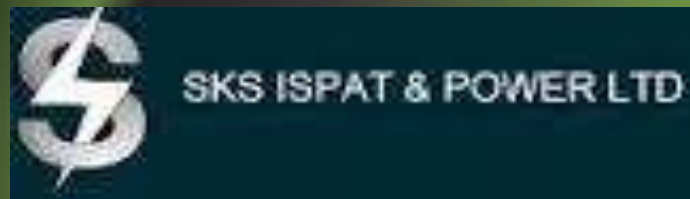

- Customer satisfaction
- Effectiveness of Cost
- Products durability
- Products Reliability
- Professional approach
- Responsiveness to problems
- Management of maintenance activities
- Availability of good inventory control
- Satisfactory working conditions
- Meeting out of existing needs by the assets
- Effectiveness of helpdesk services
- Problem solving/Complaint resolution efficiency
- Rectification of faults
- Standards of Services with respect to Benchmarks
- Management Information systems
